

Artesian Water Company has two job openings in our Milton, Delaware office.

Manager of Survey

Coordinates the activities of field survey parties; works closely with the Engineering Department with base plans and review of land development projects; and performs other duties as required. Position is responsible for the effective performance, training and safety of all members of a field survey crew; and coordination of meetings and oversight of all aspects of running a Survey Department.

Education/Experience Requirements: Associates Degree in survey or related field, a minimum of ten years' experience in field surveying and managing, and a registration for the State of Delaware for Professional Land Surveyor.

Survey Party Chief

Under direction, coordinates the activities of a field survey party; the most technically complex paraprofessional field survey duties; and performs other duties as required. Position is responsible for the effective performance, training and safety of all members of a field survey crew.

Education/Experience Requirements: Associates Degree in survey or related field, a minimum of five years' experience of field surveying, and a minimum of three years as a Survey Crew Chief. Survey-in Training (LIST) Certificate is preferred.
